DEVELOPMENT TOOLS

BRIAN STAFFORD

TRAINING DESIGNER/DEVELOPER

> ACCOMPLISHMENTS

EZ LCMS

Created and Managed an LCMS small business

Created the EZ LCMS Learning Content Management System from scratch. Went into business selling LCMS access and usage on a per-month basis. Grew the system and business into an industry standard platform used by civilian and government agencies all over the world to train over one million students.

WHITE HOUSE COMMUNICATIONS AGENCY (WHCA)

Integrated Training System and Content

Designed and developed Level 2 Interactive Web-Based courseware to train on organizational standards and procedures. Implemented and maintained the Content Management System used for all WHCA courseware.

JOINT CHIEFS OF STAFF OFFICE OF THE PENTAGON

Intelligence, Surveillance and Reconnaissance (ISR) Symposium

Obtained Top Secret TS/SCI clearance and served as principal content developer for the symposium, a high visibility training product presented to officers at the highest levels of each branch of the US military, and the White House. Created high-end 3D simulations and interactive courseware products using off-the-shelf tools and proprietary government software.

US ARMY MANEUVER SUPPORT CENTER (MANSCEN)

Intelligence, Surveillance and Reconnaissance (ISR) Symposium

Created a collaborative 3D environment for the simulation of IED detection procedures for the Maneuver Support Center using Adobe Flash and Flash Communication Server.

BOEING

Apache Longbow Initial Training

Led a team of twelve contracted designers and developers in the development of level 2 multimedia courseware in a high-volume, short time-frame project.

> EDUCATION

BA MATHEMATICS / EDUCATION

Emory and Henry College / Emory Virginia

1992-1994

Completed a degree in Mathematics with a minor in education, preparing to teach High School math.

Christopher Newport University / Newport News Virginia 1990-1992

Transferred to Emory and Henry College after two years.
